LOGOS & CORPORATE IDENTITY

Conceiving the ideal logo for your company, product, or publication means distilling the essence of an *experience* into a single image. We can design that image and transform it into complementary letterheads, business cards, and collateral.

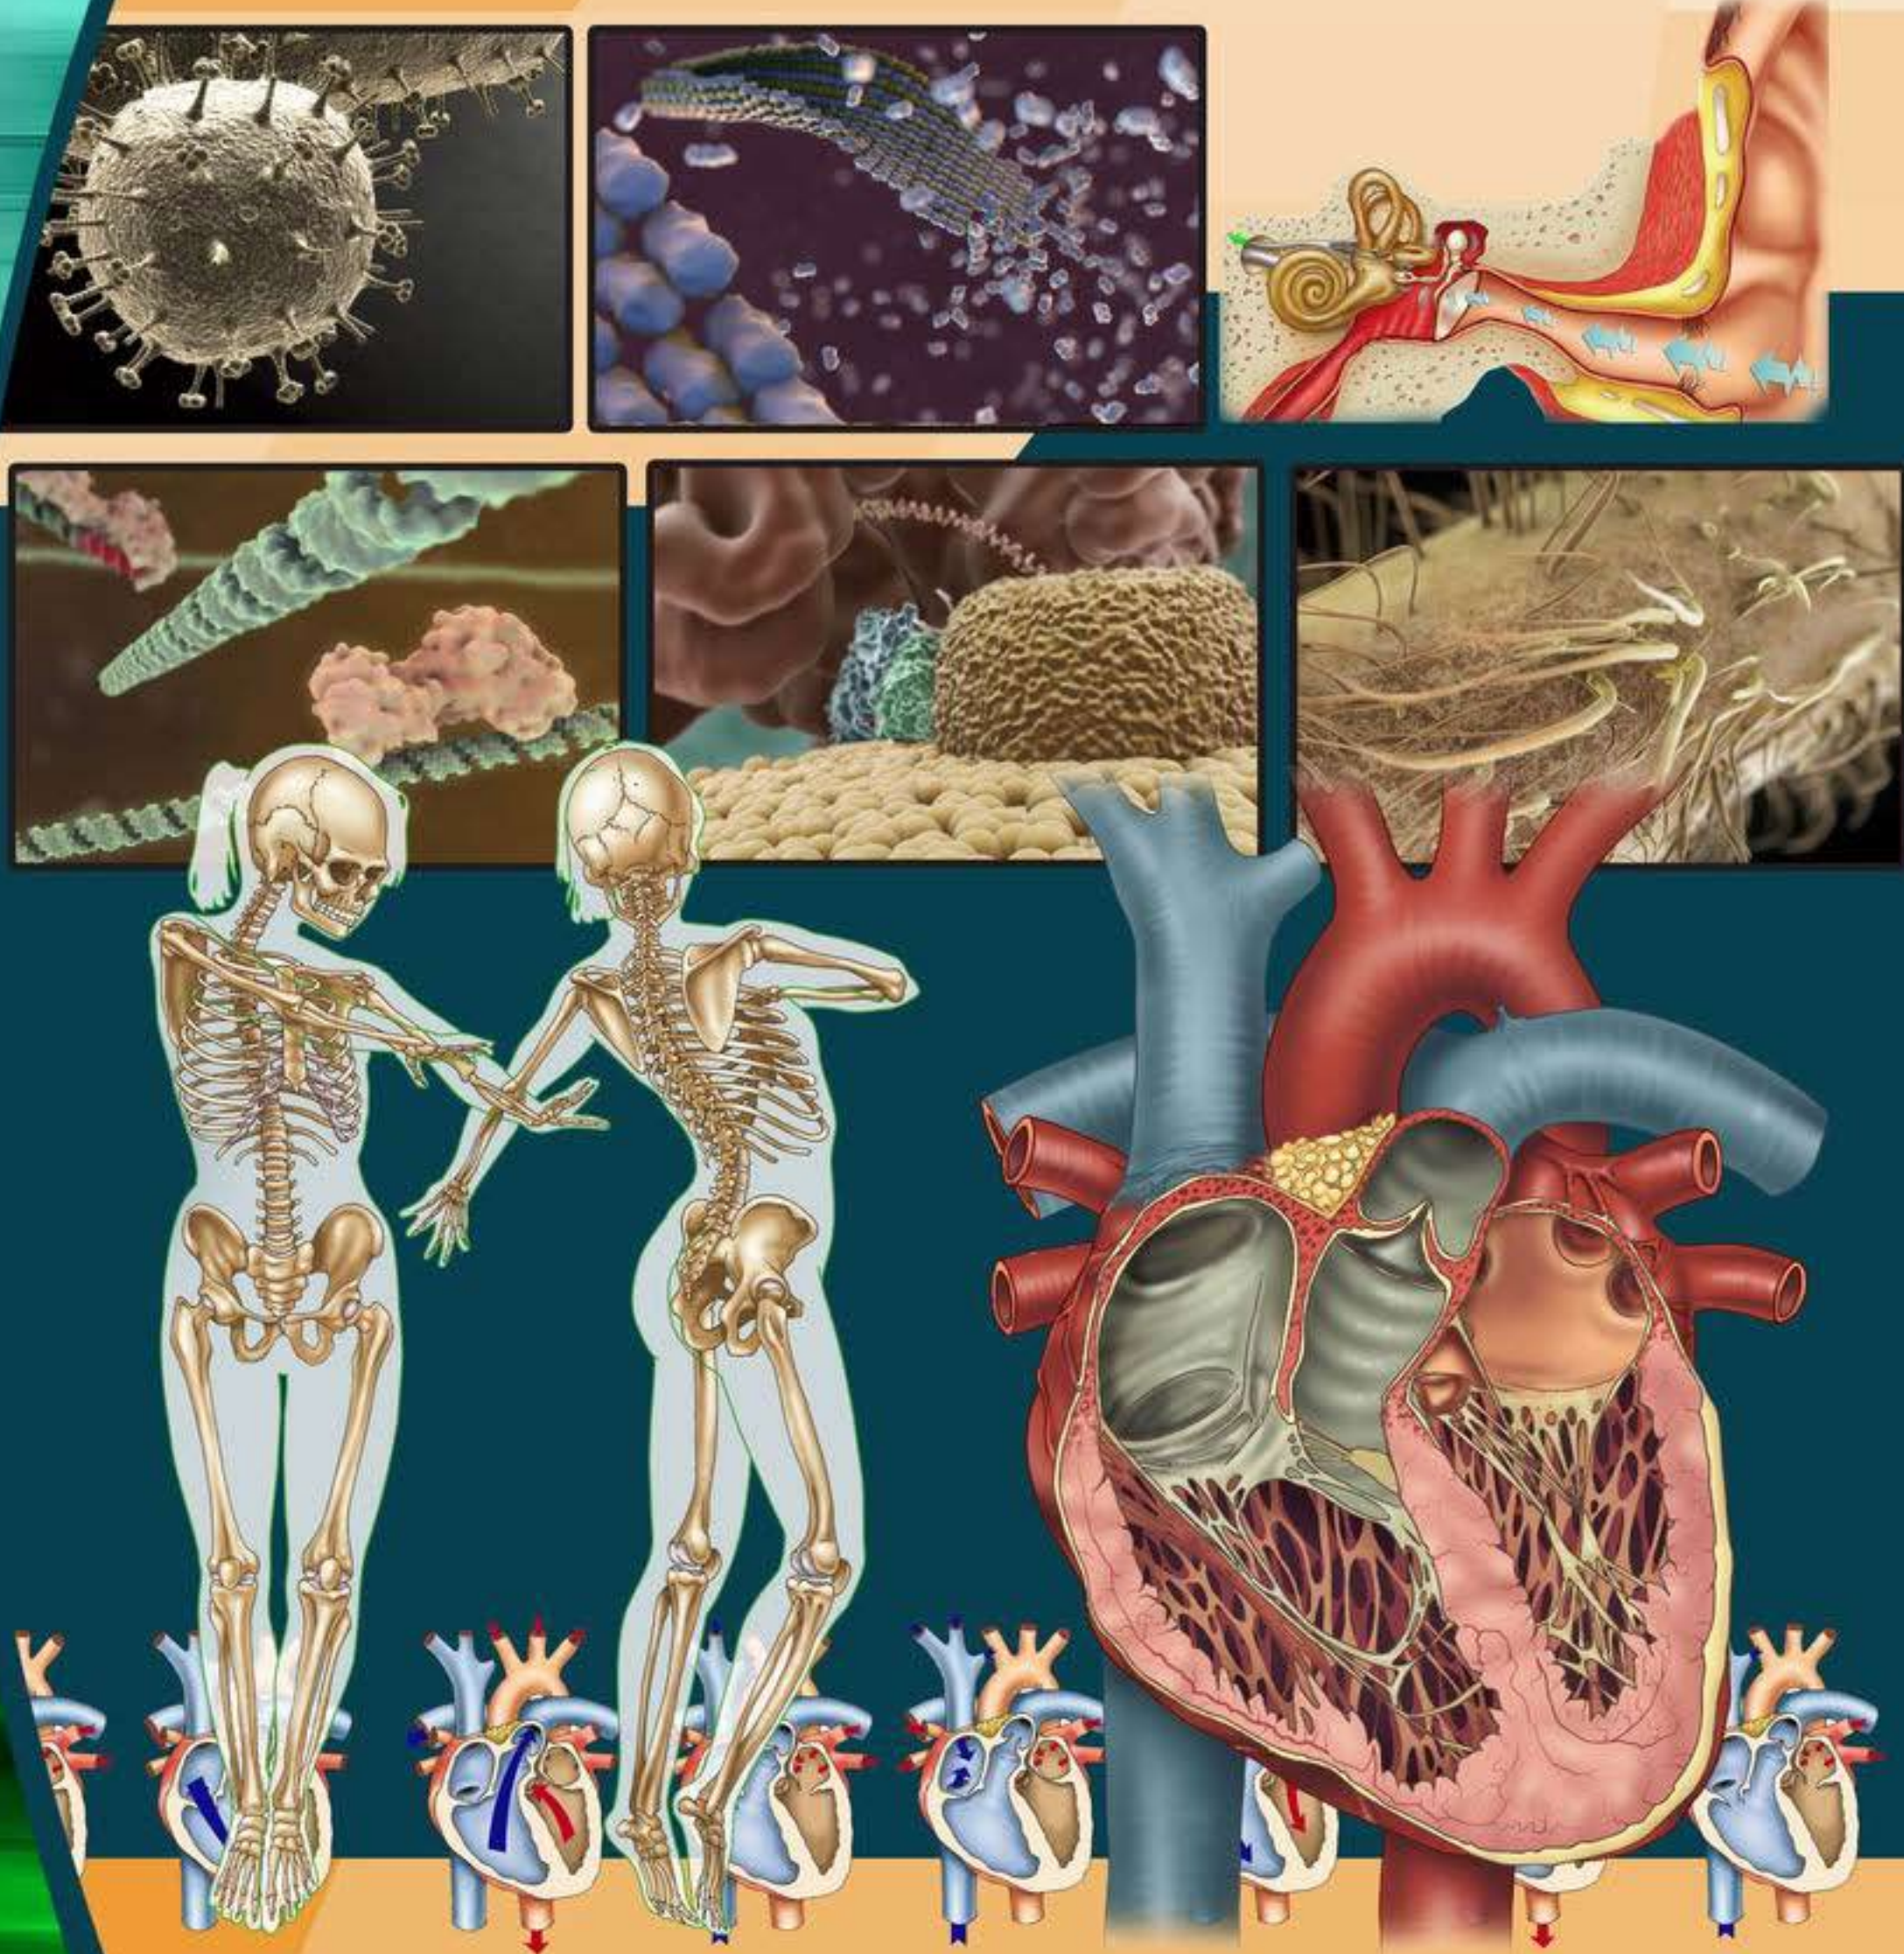

Then onward to inventing custom kiosks and point of purchase displays, and defining your internet presence, making your identity unique and unforgettable.

Made Ya Look. Made You Remember.

MEDICAL ILLUSTRATIONS

From an exact rendering of a medical procedure for a newsletter or textbook to a rollercoaster-fast CGI video of a microscopic flight through a patient's bloodstream, the medical field knows that Glass House has the prescription for precise graphics: Call us in the morning.

A Healthy Cure For The Common.

MODEL SCULPTURE & MOVIE MONSTERS

The horrifying creature from that big-budget movie blockbuster began as a concept design and sculpture from our hands and minds.

So did those statues and maquettes in the specialty stores. And the custom statues created for a one-of-a-kind collector.

*Feat Of Clay From The Hands Of A Surgeon
And Mind Of An Artist.*

PHOTO RETOUCHING & ENHANCEMENT

Re-customizing a sports car for an ad.

Turning a pretty model into a flawless fantasy.

Creating scenes that exist only in imagination.

*Sometimes A Photo Finish
Is Only The Beginning.*

SPECIALTY PRINTING

Glass House works with strategic print partners nationwide to deliver comprehensive printing and mail-ad fulfillment services -- whether it's one print-on-demand book or magazine for a presentation, or five million color catalogs printed and shipped to a mailing list customized for you. And that's just the beginning. Imagine: From die-cut videogame boxes to candy wrappers. From custom kiosks to point-of-purchase displays. From fine art giclee` prints to the never-before-attempted. Thanks to our network of printers and problem-solvers, practically anything is possible. Impractically, too.

We Wrote The Book On Specialty Printing.
And Printed That, As Well.

STORYBOARDS

Our storyboards establish the sequential visual narrative later brought to life with cameras, actors, and animation. Let us create yours -- from compelling full-color presentation storyboards to down-to-business black-and-whites -- for cartoons, commercials, feature films, and even music videos.
